

Information about the "NOPHO update course" for experienced pediatric oncologists in Bålsta close to Stockholm, October 9-11

Dear friends,

As you know, NOPHOs educational committee has arranged three series of five courses for young pediatric oncologists. Now the time has come for an update course for the more experienced pediatric oncologists. The responsibility for the update course s has been circulated among the Nordic counties; Oslo 1986, Borgå 1991, Århus 1996 and Finnish Lapland 2005, and now the turn has come to Sweden. The educational committee has commissioned the chairman of SBLG, Stefan Söderhäll and the chairman of VSTB, Gustaf Ljungman to arrange a meeting where the main themes should be Leukemia and Soft Tissue Sarcoma.

We have received generous support from Barncancerfonden and a preliminary program is attached as a separate document. We want your applications, which are binding, at the latest on September 1st to Birgitta De Verdier. We have planned for about 30 participants and may have to select if there are too many applications. Your costs will be the first hotel night (approximately 2000 SEK full board) and your travel expenses.

Best regards and welcome to Bålsta in October!
